

MARK ANTHONY T. SAMONTE

FULL STACK WEB DEVELOPER

Nueva Ecija, Philippines | +639260523203 | mat.samonte9@gmail.com

Result-driven Full Stack Developer with experience building and deploying full-featured web-apps using the MERN stack. Proven Ability in managing the end-to-end software development life-cycle, from concept and database design to front-end implementation and deployment. Leverages strong problem-solving skills and a detailed-oriented approach to write clean, efficient code and deliver user-centric solutions. Eager to contribute technical expertise in TypeScript, ReactJS, NodeJS, and MongoDB/MySQL to a collaborative team.

EDUCATION

College Aug 2021 - Jun 2025
Bachelor of Science in Information Technology
Nueva Ecija University of Science and Technology
• **Major in Web Systems Technology (WST)**
• **Awards: Academic Distinction, Excellent Service Award for Athletes, Loyalty Award**

ORGANIZATIONAL AND WORK EXPERIENCE

WebTech Society (NEUST-Sumacab Campus) Aug 2024 - Jun 2025
President
• Led initiatives to foster innovation, organized events, and created opportunities for students to grow in web development and technology.

Capstone: OnionLens Detecting Armyworm Infestation in Onion using Image Processing Techniques Jan 2024 - Nov 2024
Machine Learning (Python)
• Led the end-to-end development of the machine learning. Built the model using CNN and improved the system using Hyperparameter Tuning with the use of framework libraries namely TensorFlow, Keras, etc..
• Successfully defended the thesis with an accuracy of around 95% and was introduced to local farmers demonstrating its potential as a future tool for early pest detection.

Internship: Prokora Networks Solution Inc. Admin-Side System Jan 2025 - May 2025
FrontEnd (HTML/CSS/JavaScript)
• Created Admin-Side System which do things like RBAC and acts as record-tracker of the valuable assets and transactions of the company. I handled frontend duties using HTML, CSS, and JavaScript.
• Was noted by the supervisor as complete. It was introduced to the company to helped them scale their business in the future.

Store System | Personal Project Nov 2025 - Jan 2026
Full-Stack Developer (VanillaJS/NodeJS&Express/MongoDB)
• Developed a full-stack Retail Management System which handles Inventory Control, Point-of-Sale, Order Tracking, Checkout Module, Price Checking, RBAC, and User-Management. Also powered by barcodes.
• Produced great impact on my mother's business which reduce workloads, manual checkings, and human errors.

TOOLS

HTML5, CSS3, JavaScript(ES6+)
ReactJS

Node.js&Express
MongoDB&MySQL

TypeScript
Git&GitHub
