

Mark Anthony T. Samonte

Full Stack Web Developer

Philippines | mat.samonte9@gmail.com | +639291815435 | website: markanthonyssamonte.dev

EDUCATION

Nueva Ecija University of Science and Technology (NEUST)

Cabanatuan, Philippines

Bachelor of Science in Information Technology

June 2025

- **Concentrations:** Web Systems Technology
- **Related Coursework:** Datastructure and Algorithms, Database Management Systems, Object-Oriented Programming, Web Development, Software Engineering

EXPERIENCE

Prokora Network Solutions

Manila, Philippines

Frontend Developer Intern

Jan 2025 - June 2025

- Developed UI features and dashboard for a sales tracking system supporting employee, customer, project, and lead management
- Collaborated with the development team to improve manual tracking processes, delivering features used in production.

PROJECTS

Detecting Armyworm Infestation in Onions

Gabalton, Philippines

Machine Learning Developer

Jan 2024 - Nov 2024

- Developed a CNN-based image classification system to detect fall armyworm infestation in onion crops using TensorFlow, Keras, achieving 92% accuracy
- Collected and curated a custom agricultural dataset from Gabaldon farmers (DSWD-reported infestation affecting 1,517 farmers) and built full ML Pipeline with preprocessing, training, and heatmap-based interpretability.

AI Generation

Team Lead

April 2026 - Present

- Leading a development of a multimedia AI generation platform for creators and editors onboarding ~30 private beta testers from creator and e-commerce networks at beta launch, designing system architecture separating frontend, backend, and AI CoPilot microservices, handled workflow orchestration using ComfyUI for media generation, and API contracts
- Solved creator workflow inefficiencies by enabling direct AI generation and sharing without third-party tools (e.g., file transfer, GDrive, or external editors), reducing friction and preserving output quality.

POS, Inventory, Order, RBAC Management System

Palayan, Philippines

Full Stack Developer

December 2025 - January 2026

- Developed a full-stack POS and inventory system for a family business to replace manual tracking and computations, improving efficiency in sales, orders, and inventory management
- Built core system features including CRUD operations and role-based access control (RBAC) to manage users and secure business data access.

ACTIVITIES AND LEADERSHIP

WebTech Society at NEUST

Cabanatuan, Philippines

President

Aug 2024 - June 2025

- Led a 200-member student organization with 10 officers, overseeing planning and execution of technical seminars and community outreach programs
- Organized and supervised events focused on web development and technology awareness, improving student engagement and technical exposure within the university.

NEUST Football Club

President / Captain

Cabanatuan, Philippines

Aug 2023 - June 2025

- Led and represented the university football team as both organizational president and on-field captain, competing in inter-university/regional tournaments while overseeing team coordination and performance
- Managed training sessions, match preparation, and team discipline, fostering collaboration, leadership, and consistency among players.

SKILLS

Frontend: JavaScript, TypeScript, React, HTML, CSS, Tailwind CSS, TanStack Query, Vitest

Backend: Node.js, Express

Database/Infrastructure/Auth: PostgreSQL, MongoDB, Redis, Drizzle, Supabase, Vercel, Railway, Render, Cloudinary, Cloudflare R2, Clerk

AI/Systems/Tools: ComfyUI, Claude, BullMQ, Websockets, , Cloudflare Tunnel, Ngrok, Docker, Git, GitHub Actions, Postman

Technical / Programmatic: Data Structures & Algorithms, Object-Oriented Programming, RESTful APIs, Git / Version Control, Software Engineering Principles, CI/CD Pipelines

Platforms: Windows

Honors: 1st Honorable Mention, With Honors, Leadership Award (2x), Loyalty Award (2x), Excellent Service Award for Athletes

Language: Filipino, English

Interests: Football, Basketball, Video Games
