EDUCATION

Nueva Ecija University of Science and Technology (NEUST)

Cabanatuan, Philippines

Bachelor of Science in Information Technology

Aug 2021 - Jun 2025

- **Concentrations:** Web Systems Technology
- **Related Coursework:** Datastructure and Algorithms, Database Management Systems, Object-Oriented Programming, Web Development, Software Engineering

EXPERIENCE

Prokora Network Solutions

Manila, Philippines

Frontend Developer Intern

Jan 2025 - Jun 2025

- Developed UI features and dashboard for a sales tracking system supporting employee, customer, project, and lead management while collaborating with the development team to improve manual tracking processes, delivering features used in production.

PROJECTS

AI-Powered Multimedia Generation

Team Lead

Apr 2026 - Present

- Leading a development of a multimedia AI generation platform for creators and editors onboarding ~30 potential beta testers from creator and e-commerce networks at beta launch
- Designed system architecture separating frontend, backend, and AI CoPilot microservices (built by a collaborator), handled workflow orchestration using ComfyUI for media generation, and API contracts.

POS, Inventory, Order, RBAC Management System

Palayan, Philippines

Full Stack Developer

Dec 2025 - Jan 2026

- Built RBAC-secured inventory and sales workflows for our family business reducing manual tracking for daily business operations.

Detecting Armyworm Infestation in Onions

Gabaldon, Philippines

Machine Learning Developer

Jan 2024 - Nov 2024

- Developed a CNN-based image classification system to detect fall armyworm infestation in onion crops using TensorFlow, Keras, achieving 92% accuracy
- Collected and curated a custom agricultural dataset from Gabaldon farmers (DSWD-reported infestation affecting 1,517 farmers) and built full ML Pipeline with preprocessing, training, and heatmap-based interpretability.

ACTIVITIES AND LEADERSHIP

WebTech Society at NEUST

Cabanatuan, Philippines

President

Aug 2024 - June 2025

- Led a 200-member student organization with 10 officers, overseeing planning and execution of technical seminars and community outreach programs focused on web development and technology awareness.

NEUST Football Club

Cabanatuan, Philippines

President | Captain

Aug 2023 - June 2025

- Led and represented the university football team as both organizational president and on-field captain, competing in SCUAA/regional tournaments while overseeing team coordination and performance

SKILLS

Programming Languages: JavaScript, TypeScript

Frontend: React, Tailwind CSS, TanStack Query

Backend: Node.js, Express

Databases: PostgreSQL, MongoDB, Redis, Supabase

Infrastructure/Tools: Docker, Git, GitHub Actions, Cloudflare R2, BullMQ, WebSockets

Testing: Vitest, Postman

Concepts: Data Structures & Algorithms, Object-Oriented Programming, RESTful APIs, Software Engineering Principles, CI/CD Pipelines, System Design and Architecture

Honors: 1st Honorable Mention, With Honors, Academic Excellence Awardee, Leadership Award (2x), Loyalty Award (2x), Excellent Service Award for Athletes

Language: Filipino, English

Interests: Football, Basketball, Video Games
